DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-40, drawn to a system for distributing spending vehicles comprising a tax refund or payment from a governmental entity, classified in class 705, subclass 31.
 - II. Claims 41-50, drawn to a method for allocating a payment to a spending vehicle comprising purchasing a plurality of spending vehicles for a lump sum payment from a sponsor of the spending vehicles, classified in class 705, subclass 14.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the subcombination of invention II has separate utility such as a method of allocating payment to a spending vehicle that is practiced in the absence of any tax refund or payment from a governmental entity. See MPEP § 806.05(d).
3. Because these inventions require a different search, are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3624

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
